
ChloroMitoSSRDB License Agreement

Version: ChloroMitoSSRDB 2.0

ChloroMitoSSRDB database provides the distribution of the microsatellites in the chloroplast and the mitochondrial genomes. This database can be mirrored for in house experimentation and for extracting species-specific microsatellites locally for free by government agencies or non-profit institutions. To obtain a copy of the complete database , please copy and send the license form duly signed to Dr. Gaurav Sablok (Department of Sustainable Agroecosystems and Bioresources, Fondazione Edmund Mach, Via Mach 1, 38010 San Michele all'Adige (TN) - Italy; sablokg@gmail.com or Dr. Suresh B. Mudunuri (Department of Computer Science and Engineering, Grandhi Varalakshmi Venakatarao Institute of Technology, Tundurru, Bhimavaram, Andhrapradesh; sureshverma@gmail.com)

By obtaining this database, you agree not to redistribute or make it publicly available on your webservers or websites.
